## **Complaint Learning Summary 2024/2025**

There have been 132 complaints where learning and service improvement have been identified. The table below shows the departments associated with the identified learning.

Complaint volumes and recorded learning with the Maintenance service continues to be the main area of improvement required.

Further analysis shows the reason or source of the dissatisfaction and 80% of the dissatisfaction reasons can be attributed to four key focus areas, these are Improving Communication (keeping our tenants informed throughout service delivery), Missed or delayed appointment timescales, Attitude of colleagues and contractors and repairs not resolved.

The learning has been categorised and can be attributed to 4 key areas of change or improvement needed, these are required training for colleagues, Contractor monitoring and management, changes to policy and procedures and investment in resources.

Putting this information into actions is what will drive service improvements across Ongo

A summary of the changes that have been made or planned so far in line with the learning trends are:

- 25% increase in Maintenance operatives to increased appointment availability
- Brand new leadership team within Maintenance service with a focus on Maintenance.
- Recruitment to a new Head of Asset Management.
